

Zanzibar liquids terminal (zlt) for the importation of liquid fuels - Energy

Project Title:	<i>Zanzibar Liquids Terminal (ZLT) for the importation of liquid fuels.</i>
Total Project Cost:	<i>The capital expense of the project is expected to be approximately US\$40m. This estimate will be refined with the pre-feasibility study, as well as the feasibility study.</i>
Project Timeframe	<i>ZLT can become operational within 4 years after a go-ahead decision is taken by the government</i>
Region:	<i>Mangapwani/Bumbwini, Zanzibar, Tanzania</i>
Main Sector:	<i>Energy</i>
Project Outcome:	<i>To ensure Zanzibar has a strong energy security position with at least 8 weeks supply of liquid energy at any time. Secondary objectives are reducing the cost of fuel to consumers, developing Zanzibar's regional position as a transshipment point, and relocating fuel storage away from heavily build up residential and commercial areas.</i>
Medium-Term Development Plan (MKUZA II):	<i>The Revolutionary Government of Zanzibar (RGoZ) recognizes the role of public-private partnerships (PPPs) in improving public services, and in assisting Zanzibar to achieving middle-income status by enabling sustainable and inclusive growth in key sectors, promoting human capital development, providing quality services for all. MKUZA II highlighted that the economic future of Zanzibar requires the rapid development of new economy-access facilities able to provide efficient services for Zanzibar and East Africa at large.</i>
Sector Policy and Plan:	<i>Zanzibar Utilities Regulatory Authority (ZURA) Strategic Plan</i>
Administrative Unit:	<i>This project will be administered by ZURA with technical PPP assistance provided by the PPP Unit under Economic Management Department (or PPP Department once established), within the Zanzibar Planning Commission.</i>
